

**CLINICAL TREATMENTS
BY DR. ALAN SERURE**

Microdermabrasion

A gentle yet effective treatment for deep exfoliation, pore-refining, acne scars and hyper pigmentation.

Chemical Peels for Specific Concerns

LACTIC ACID	Hyper pigmentation and sun spot correction
SALICYLIC ACID	Acne and breakouts
GLYCOLIC ACID	Dull surface cell removal for renewed radiance
TCA	Anti-aging, wrinkle reduction

Laser Treatments

Using one of the safest and most advanced laser systems in the world, Dr. Serure offers a variety of cosmetic services:

- Hair Removal
- Vascular
- Skin-Tightening
- Photo Rejuvenation
- Scar Reduction

Thermage®

This non-invasive procedure helps tighten and contour skin in a single treatment. Thermage® radio frequency promotes the renewal of collagen, creating a subtle “lift” and natural-looking results. Without the use of surgery or injectables, there is little or no downtime.

- Face/Neck/Eyes
- Body
- Abdomen

Cool Sculpting®

This procedure is the only FDA-cleared, non-surgical fat reduction treatment that eliminates stubborn fat on the inner and outer thighs, the abdomen & the flanks. Results are evident in two to four months, sometimes sooner. Relax, while your fat cells are destroyed with no downtime at all.

Prices vary per area. Consultation required.

Injectables & Fillers

Safe and effective alternatives to surgical procedures, used to enhance the beauty results of cosmetic surgery and may be used independently.

Restylane®, Juvederm®, Juvederm Ultra® and Perlane® specialize in restoring volume to different areas of the face to achieve more youthful-looking contours.

Each contains hyaluronic acid proven to smooth the appearance of moderate-to-severe lines and wrinkles. This class of fillers exquisitely fills troublesome smile lines, facial wrinkles, nasolabial folds and lip lines. These can also be used for lip enhancement adding fullness and a more youthful appearance. Since the active ingredients in these formulas are naturally present in the body, they are easily absorbed and have minimal side effects.

Dr. Serure will apply a topical anesthetic to your skin prior to administering your injectables. The results will be nearly immediate, cause no downtime, and last for as long as six months. He and his staff will gladly discuss a treatment program and maintenance schedule that will keep your skin looking naturally-youthful as you age.

Fillers are often used to enhance the beauty results of cosmetic surgery. Ask about them if you are planning to have a surgical procedure.

RESTYLANE® & PERLANE®

Restylane® and Perlane® are HA (hyaluronic acid) fillers used to fill smile lines, facial wrinkles, nasolabial folds and lip lines. Dr. Serure has found both of these fillers to be very effective in addressing these issues.

RADIESSE®

Proven to add volume to cheeks, smile and frown lines—this rejuvenating filler helps stimulate natural collagen production, and is known to last longer than other injectables.

VOLUMA®

The newest HA (hyaluronic acid) soft tissue filler to gain FDA approval. The loss of mid-face volume is one of the hallmarks of facial aging. Voluma® replenishes lost volume in the cheeks, to help restore a youthful-looking, rejuvenated appearance. Voluma® is often referred to as the “liquid facelift.”

BOTOX®

One of the first injectables introduced in the market, Botox® is still a favorite among patients wishing to reverse visible signs of skin-aging. It works by relaxing the facial muscles responsible for the creation of frown lines. Botox® still remains one of the favorite nonsurgical fillers.

DYSPORT®

Employs the same mechanism as Botox® to smooth facial lines and wrinkles, and is administered the same way. Like Botox®, Dysport® also has the ability to encourage muscles to unlearn the movements that cause wrinkles, and requires fewer touch-ups over time.

Special Occasion Packages

Ask about our wedding and prom packages. If you have a special treatment request, or upcoming event, our Beauty Experts and Medical Aestheticians will be delighted to advise you.

For reservations, please call: (305) 669-0184

Spa Hours

Monday - Friday, 9:00 a.m. to 5:00 p.m.

Arrival Procedure

To enjoy the complete Dr. Alan Serure Skin Spa by Clarins experience we recommend arriving 15 minutes prior to your appointment.

Should you arrive late, the duration of your treatment may be shortened to avoid inconveniencing other clients. Full rates will apply.

Cancellation Policy

To change or cancel your appointment, kindly provide 24-hour notice. Shorter notice, and no-shows, will be responsible for paying the full cost of the treatment. Please note late arrival will determine the length of your treatment and a no-show will be charged the full rate.
